Reports 6

3 JUL 1974

MEMORANDUM FOR: Deputy to the DCI for the Intelligence Community

SUBJECT: Annual Reports for FY 1974

Danny:

1. In your memorandum of 1 July 1974 you suggested that we change the 1 September due date for the Directorates' submissions to the Agency's Annual Report. You made this suggestion because the Agency's submission to the Community's report is due on 1 September.

2. We reviewed the conflict in deadlines when your 23 May 1974 memorandum, calling for submissions to the Community's report, was received and decided not to change our deadlines. We so decided in the belief that the pertinent information would be available to us and in order not to aggravate the burdens placed on the directorates at a very busy time of year.

3. We still expect to have the necessary inputs from the directorates in sufficient time to meet your 1 September date. One directorate has already made available, as part of its submission to the Agency's Program Review, the material it believes appropriate for the Annual Report. Another has indicated we will have its submission by 15 August. From the other two directorates we will obtain, by about the same date, at least informal gists of their submissions. The detailed component submissions to the Agency's Annual Report and the wealth of information submitted for the Program Review will, of course, be available for all four directorates.
